- Auxiliary Input

Bluetooth A2DP (Wireless Music Streaming)

Pair your mobile phone with the unit and send your music stored on your mobile phone wireless to the radio. Enjoy all of your favorite music in your car.

Bluetooth with HSP/HFP

Pair your mobile phones with the unit and enjoy the ease of calling and talking to your loved ones without taking your hands off the steering wheel.

SD/MMC Card Slot

Supports most SD or MMC cards - simply plug & play and enjoy listening to MP3/WMA/OGG music stored on your card.

Auxiliary Input (Front 3.5mm Jack)

Project music from an externally-connected music player onto the vivid car speakers.

Audio MP3/WMA/OGG Player

The enhanced head unit is able to play MP3, WMA and OGG music files stored onto USB devices or SD/MMC cards.

Universal Serial Bus (USB) Host

Supports most USB-compatible devices or storage media - simply plug & play and enjoy listening to MP3/WMA music stored on these devices/media.

2-Channel Preamp Out

Ensures that the music arriving at the external power amplifier is clear and sharp with less background noise.

Full Detachable Front

Deter theft by removing the detachable front of the radio head unit whenever you leave the car and simply slide the front back into position upon your return.
